

HEY, AMIRA - WELCOME TO THINKING MISSIONS!

Remy's brain-detective game

Psst... want to know the secret?

These missions are **NOT** about being the fastest or getting every answer right on the first try.

They are practice for your **THINKING SUPERPOWER**: figuring out what is going on, finding clues, building a path, and staying brave when you are not sure yet.

YOUR DETECTIVE PATH

You do not need the whole plan at the beginning. Just find your next useful step.

1

Understand

What is this asking?

2

Find clues

What do I know?

3

Build a path

What could I try?

4

Try it

Let's see what happens.

5

Check + retry

Did it help? Another way?

EARN DETECTIVE BADGES FOR THINKING MOVES

Badges are for what your brain **DOES** - not just for correct answers.

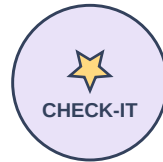

I noticed something useful.

I made a way to start.

I tried before I was sure.

I checked if my idea made sense.

I changed course and kept going.

REMEMBER REMY'S SECRET:

Getting stuck is allowed. Wrong turns are allowed. Asking for a hint is allowed after you give your brain a chance to try.

**"I do not have to know it right away.
I can notice, try, check, and try again!"**

Best part? **YOUR PATH** matters more than getting it right the first time.
